**Subject:** R9 letter on RESRAD and the Hunters Point Naval Shipyard Radiological Building Remediation Goals

Stuart/Maryt/Dianna –

We sent our letter on the use of RESRAD and the Hunters Point building remediation goals to the Navy earlier this afternoon. Given the likely interest by outside stakeholders, we decided to convert the draft email we sent you last week into a more formal letter. The letter provides additional background and context, and does not include the tables with new BPRG values. I am providing the BPRG tables separately to the Navy.

Please let me know if you have any questions.
